

What I Love about camp

Camp Hendon is so Exciting. Every year I've been I have met at least 2 people. My most Loved Activity at camp is Tire-Dye. It is great for bonding, and I just love it. When we all sit down close to each other, we laugh, smile, and have fun all around.

My second favorite thing about camp is the pool. When we are in the pool we are just having fun. We aren't worrying about anything except having fun. We play games and talk. The pool is a really great place to get to know someone.

My last favorite thing about camp is rock climbing. When we are cheering each other on, seeing who's going to make it to the top first, or cheering your friend from the side saying "go go" or "you got this" is so great. Rock climbing helps you trust others and really see who you can trust and who's your real friend.

The past 2 years I've been I have experienced all of these feelings. When we all get together and talk is so important. By the end of the week we are crying and sad. We all talk to each other daily in texts and we have created a great bond.

Sincerely, Assata
